LA Robotics Mission

Los Angeles Robotics is a California Nonprofit Public Benefit Corporation.

Purposes for which this corporation is organized include:

- Serving the public by offering fun, technology-based enrichment activities for youth and community outreach with a focus on robotics programs that are affordable and sustainable throughout Southern California.
- Partnering with the *FIRST* LEGO League (FLL), *FIRST* Tech Challenge (FTC), and *FIRST* Robotics Competition (FRC) programs to support regional events and the development of teams and volunteers.
- Partnering with VEX IQ Challenge, VEX Robotics Competition (VRC) and VEX U programs to support regional events and the development of teams and volunteers.
- Nelson Team Grants for SoCal VEX IQ Challenge teams
- Supporting the development of volunteers for regional and national events.

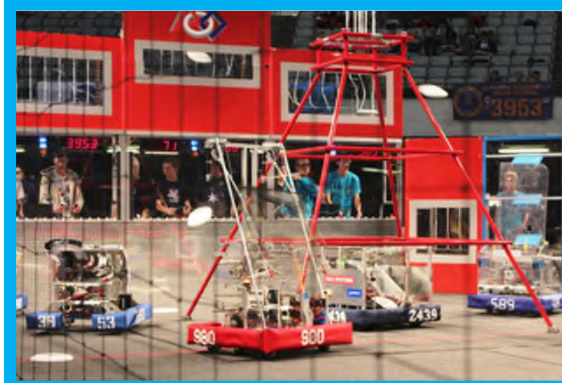

Southern California Regional Robotics Forum (SCRRF)

SCRRF is a division of Los Angeles Robotics, supervised by the SCRRF Committee.

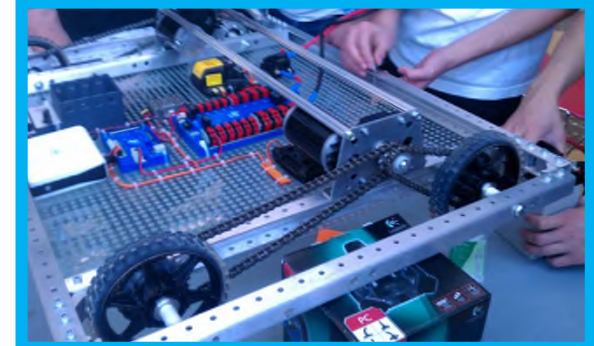

SCRRF hosts the Fall Classic, Pre-Bag Scrimmage and various workshops to help teams prepare for upcoming competitions. Beside the events and workshops, teams in SCRRF have formed a sense of *FIRST* community, making their experience more enjoyable.

We need volunteers and support!

SCRRF Events

- Kit Bot Build Day - January
- Pre-Bag Scrimmage - February
- Fall Classic - October
- Fall Workshops - November

SCRRF Scholarships

SCRRF offers scholarships to high school seniors applying for college STEM majors
