**The NSLC on Engineering is looking for Assistant Team Advisors for Summer 2012!**

### **National Student Leadership Conference on Engineering**

Since 1989, thousands of outstanding high school students from across the United States and more than 45 countries have come to the NSLC to explore the qualities of leadership and get an insider's perspective on some of today's most exciting professions. This 10-day conference provides high school students with hands on engineering experience along with opportunities to meet engineering professionals and to visit engineering schools and facilities in the San Francisco, Atlanta, Washington D.C., or Chicago areas. Examining the ethical dilemmas that arise in the engineering profession, exploring the different subfields of engineering and building a design project are among the many activities that students will experience with the guidance of their Assistant Team Advisors.

### **The Role of the Assistant Team Advisor**

Assistant Team Advisors (ATAs) act as leadership facilitators, presenters, simulation monitors and resident advisors. The job of a ATA encompasses the role of a chaperone, teacher, mentor, and policy enforcer. As an ATA, you will facilitate and help supervise a group of 12-16 students with the Head Team Advisor. Many TAs and ATAs choose to lead activities, simulations, and lectures attended by all students. Working with your HTA's group is an amazing experience as you watch your students make friends for life and experience the world of engineering in a personal way. This is a unique opportunity to serve as a mentor and role model for talented young students and share your passion for and knowledge of the engineering, math, and science.

### **Requirements for Employment**

Assistant Team Advisors must be high school seniors enrolling into a four year University with a background and interest in some discipline of the engineering, math, or science. The most qualified candidates will have participated in leadership programs, workshops, or classes and will have experience working at summer camps or with high school students in a position of leadership.

### **Dates & Compensation**

Team Advisors will be paid \$800 at the end of each session. The NSLC pays for room & board, as well as transportation to and from the conference. In 2012, the NSLC on Engineering will be held at the following universities:

**UC-Berkley**  
June 21 – June 30  
July 5 – July 14  
July 18 – July 27

**Georgia Tech.**  
June 22 – July 1  
July 5 – July 14

**University of Maryland**  
June 24 – July 3  
July 7 – July 16  
July 21 – July 30  
August 30 – August 12

**Northwestern University**  
July 19 – July 28  
August 1 – August 10
