Subject: Re: LARobotics involvement in Aerospace Games

as i understand it, the motion for which our approval is requested is: "I would like to propose a motion to have involvement with the Aerospace games on July 29". i have absolutely no idea what this means, but i approve it.
and i resign from the board.
andy

Eileen and David,
By my count, you need approvals from three more Board members.

Members who have approved the motion:

Tony Ayad, David Brinza, Chris Husmann, Eileen Kahn, Ross Mead, LeRoy Nelson, Tarek Shraibati, Amanda Sullivan, Terry Wells

Members who have not responded:
Andy Crick, Joe Petito, Alicia Skilton

LeRoy

P.S. I will be out of the country for the next two weeks with limited access to email.

Team 980 will seek feedback on printed promotional materials for the event. We will need to decide on the final format at least a week prior to the event to allow for printing.
Do we want to create an LA Robotics logo? (I know this has been proposed in the past without luck.)

Yes. I hope everything went out to everyone. I think we can make this a great event. David Brinza and I would like to foster more awareness of our organization and create opportunities for all robotics kids.

Eileen,

I approve the motion. A unanimous response of approval by the board is required to approve a motion by email.

I suspect that you intended to send the attached brochure for the Aerospace Games to the board.

LeRoy

Subject: Involvement in aerospace games

Hello all,

I would like to propose a motion to have involvement with the Aerospace games on July 29. Specifically I'm looking at having robotics participants covered under LA Robotics with our liability insurance. In The past FIRST has had a team. The event brings together all aerospace companies for a day of fun and games at Dockweiler beach. Events include a watermelon contest, water balloon toss, volleyball, ultimate frisbee and more. I attended last year and found it to be a wonderful event where people can Network and engage engineers. Thousands participate. The event is sponsored by SpaceX. I love that it is a casual setting. Many robotics alumni that are now employed by various corporations will be in attendance.

David Brinza has proposed the following:

"How about "Team LA Robotics" registers, with students, alums, mentors etc. from a bunch of SoCal robotics teams? Everyone wears an LA Robotics t-shirt, our pop-up has promotional materials, banners, a stress-ball firing robot, etc. Team 980 can make long-lead purchases, order t-shirts and giveaways, help publicize the event and work with organizers to secure our space. LA Robotics might help with team registrations, liability insurance, etc."

We also have 2 FTC teams on board --the Rock and Roll Robots and Java bots.

Please let me know if you have Any questions and if you approve this motion.
